Experience

STUDENT TECHNICIAN | BOSTON UNIVERSITY IT HELP CENTER SEPTEMBER 2014 - PRESENT

- Documented incidents and solution progress for 25+ tickets a day through our ticketing system ServiceNow.
- Provided technical support for faculty, staff, and student machines with OS X, Windows, and Linux/Ubuntu.

TECHNOLOGY RISK ADVISORY INTERN | DELOITTE JUNE 2017 - AUGUST 2017

- Analyzed 200,000+ general ledger transaction requests and approvals to mitigate the risk of fraud and money laundering.
- Cross-referenced user access levels with their positions within the company to ensure certain accounts did not have inappropriate access to critical financial and other confidential data.
- Verified the completeness and accuracy of a large-scale data conversion by testing relevant IT controls for over six different information systems.

IT FINANCE LEGAL AND COMPLIANCE INTERN | BOSTON SCIENTIFIC MAY 2016 - AUGUST 2016

- Managed and communicated with international software developers in an SAP project responsible for \$2 million in medical device tax refunds.
- Performed an IT financial systems audit of 80 applications and identified cost-saving opportunities in 20% of them.
- Served as a business analyst on a team of four to implement a value improvement process for project managers.

IT CONSULTING AND DEVELOPMENT INTERN | DATAHOUSE MAY 2015 - AUGUST 2015

- Developed and deployed a website for a non-profit fund, which generated \$10,000 in donations in less than 24 hours, using HTML, CSS, basic JavaScript, and Wordpress.
- Collaborated on a team of six to develop a business model for an iOS app and created a prototype using Xcode, Swift and Agile methodologies.
- Created and presented IT solutions for a client in order to help improve their online presence and business efficiency.

VP MARKETING AND IT | GDB PROPERTIES, INC. MARCH 2013 - SEPTEMBER 2014

- Produced company website and marketing materials which were featured in a state-wide real-estate conference.
- Worked with office managers and employees to make fitting IT recommendations when the company started.

Additional Skills & Experience

- **TECHNICAL PROJECT MANAGEMENT:** Managed a cross-functional team of iOS application developers, business leads, and QA engineers for Global App Initiative.
- **FINANCIAL ANALYSIS:** Analyzed the financial and tax implications of a fictional S-corp acquisition at the Deloitte Fan-TAXtic Case Competition.
- **MARKETING:** Designed, printed, and distributed marketing materials to students as VP Marketing for Delta Sigma Pi.
- **EVENT PLANNING:** Organized and promoted events for students as VP Marketing for Questrom Student Government.
- **PROGRAMMING:** Acquired coding experience in Python, Java, C, and Swift through classes and Global App Initiative.

Hobbies & Interests

- *Concerts:* Attend concerts and events regularly across multiple genres including EDM, alternative, pop, and others.
- *Athletics:* Enjoy hiking, running, canoe paddling, and other active outdoor activities.
